2014 WIS 142 Interchange Construction Update

As part of Wisconsin Department of Transportation's (WisDOT) WIS 142 Interchange reconstruction project, the following upcoming closures are scheduled for the next phase of this project:

I-94 EAST (SB) exit ramp to WIS 142, WIS 142 entrance ramp to I-94 EAST (SB), and a section of Paris Parkway are now closed. Travelers can utilize County E, WIS 158, and the frontage roads as their detour routes to get around the WIS 142 ramp closures.

Upcoming closures:

- Demolition of I-94 EAST (SB) bridge over WIS 142 is scheduled the week of April 21, and will require multiple overnight closures of WIS 142.

The I-94 WEST (NB) entrance ramp from WIS 142 will be closed during the demolition of the I-94 EAST (SB) bridge.

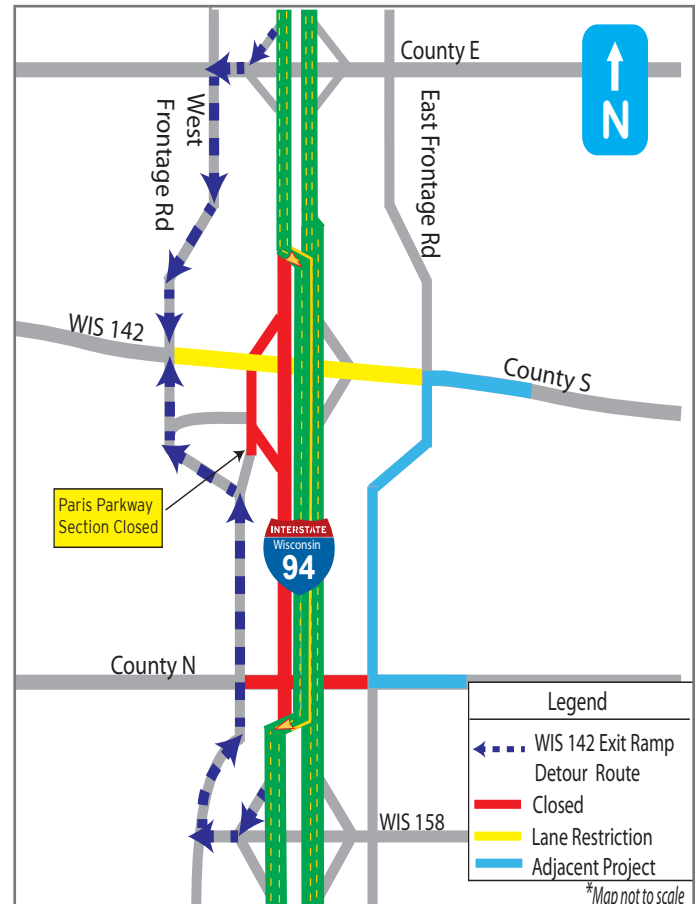

Detour:

Travelers can utilize County E, and the frontage roads as their detour routes to get around the closures at WIS 142.

- Demolition of I-94 (EAST) SB bridge over County N is scheduled for the week of April 28. County N will be closed for approximately two months.

Detour:

Travelers can utilize WIS 158, and the frontage roads as their detour routes to get around the County N closure.

Adjacent Project: In 2014, an adjacent business development (Project Onyx), not related to the WIS 142 Interchange project, is scheduled to have roadwork impacting traffic along County N, WIS 142, and the East Frontage Road between County N and WIS 142.

All closures are weather dependent and subject to change.

The project team thanks you for your patience and cooperation throughout this project.
